Eric Onah

Mid-to-Senior Full-Stack Web Developer

UTC+1 | Open to Full-Time Remote Roles | Available for international team collaboration
ericdavid4@gmail.com | www.linkedin.com/in/eric-onah

PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer with 8 years of experience and more than 5 years working remotely with distributed teams. Builds and optimizes high-performance web applications, enterprise websites, e-commerce platforms, and headless CMS solutions using React, JavaScript/TypeScript, Node.js, PHP, Laravel, WordPress, WooCommerce, Shopify, and REST APIs. Proven ability to work independently, manage deadlines, communicate progress clearly, collaborate across remote development workflows, and deliver production-ready solutions with measurable improvements in speed, reliability, automation, and conversion.

REMOTE WORK STRENGTHS

Remote collaboration: 5+ years working with remote teams and managing deliverables independently across distributed development environments.

Workflow & communication: Git/GitHub, Azure DevOps, CI/CD, Microsoft Teams, Zoom, written progress updates, code reviews, handoffs, and issue tracking.

Work environment: Dedicated remote setup with reliable Internet and backup power for continuity during calls, development, and deployments.

PROFESSIONAL EXPERIENCE

Full-Stack Developer(Contract) | Kristech | Remote | 2021 - Present

- Worked remotely for four years delivering custom WordPress websites, WooCommerce stores, and headless CMS solutions for multiple client projects.
- Built reusable React components integrated with WordPress REST APIs and collaborated through version-controlled development, review, testing, and deployment workflows.
- Reduced average website loading times by 55% and increased WooCommerce conversion rates by up to 30%.
- Delivered more than 40 successful websites and web applications while managing priorities, deadlines, troubleshooting, and client-driven changes in a remote environment.
- Diagnosed production issues and implemented performance and usability improvements that reduced support requests.

Full-Stack Developer | Techlink | Remote | 2025 - 2026

- Architect and develop scalable web applications using React, Node.js, Express.js, MongoDB, PHP, and WordPress while independently managing assigned development work and delivery deadlines.
- Design RESTful APIs and optimize frontend performance, reducing page-load times by more than 40%.
- Developed custom WordPress plugins and automation tools that reduced manual workload by 60%.
- Improved Lighthouse performance scores from below 70 to above 95 and support code delivery through Git and Azure DevOps workflows.

Web Developer | Tracetech | 2018 - 2021

- Developed responsive websites and business applications using PHP, JavaScript, MySQL, HTML5, and CSS3.
- Integrated APIs, payment gateways, and customer-management systems while improving uptime, reliability, and maintainability.

CORE TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Web Design, AJAX

Backend & APIs: Node.js, Express.js, PHP, Laravel, RESTful API Development, Authentication & Authorization, Server-Side Rendering

CMS & E-Commerce: WordPress, WooCommerce, Shopify, Liquid, Custom Themes & Plugins, Headless WordPress, ACF, Elementor, WPML

Databases: MongoDB, MySQL, Database Optimization, Query Performance Tuning

Development & Remote Tools: Git, GitHub, Azure DevOps, Docker, DDEV, CI/CD Pipelines, Linux, Microsoft Teams, Zoom, Performance Optimization, SEO Best Practices

SELECTED PROJECTS

OMONOIA Foundation - Headless WordPress Platform: Built and maintained a headless WordPress solution with a React/Next.js frontend, using WordPress as the content backend and REST APIs for frontend delivery.

OMONOIA E-Shop - WooCommerce Platform: Developed and maintained a multilingual WooCommerce store with custom variation/shared-stock logic, payment and fulfilment rules, and responsive shopping experiences.

GREE Cyprus - Corporate & Product Platform: Developed a bilingual English/Greek WordPress website with structured HVAC product showcases, multilingual content, wishlist functionality, and custom Elementor components.

GDM Architecture - Architecture Portfolio: Built a premium WordPress portfolio using custom post types, taxonomies, ACF-powered project content, dynamic galleries, filtering, and responsive layouts.

Servbank - Banking & Mortgage Platform: Contributed to a large-scale financial-services platform supporting banking, mortgage lending, loan servicing, customer resources, and lead-generation workflows.

OfficeStar - B2B E-Commerce Platform: Developed and enhanced a large-scale WooCommerce/ B2B catalogue with complex category structures, mega-menu navigation, product discovery, brand organization, and responsive interfaces.

Ablebook - Accessibility Platform: Contributed to a multilingual WordPress platform focused on accessibility and inclusion, supporting employment opportunities, services, resources, news, and its wider digital ecosystem.

EDUCATION

BSc Human Physiology | 2017 - 2021 Madonna University
